REPORT (AQAR) OF THE IQAC**

2008-2009

PREFACE

It gives me immense pleasure to submit 8th Annual Quality Assurance Report of Dnyanopasak Shikshan Mandal's College of Arts, Commerce and Science, Parbhani to the Director of NAAC, Bangalore.

The College was established with sole objectives of providing quality, access, and equity and high-tech education with economic relevance of the region by the elite group headed by Adv. Ganeshrao Dudhgaonkar.

I would like to place on record the objectives achieved after going through the NAAC process. According to my opinion and consideration each and every individual associated with this organization has undergone a paradigm shift in their mindset towards education in general and higher education in particular. As per the recommendations in the NAAC report, the Management has taken it to heart to make this institution as one of the premier quality training institutions in all respective field of disciplines. It has been reflected in constant appreciation and encouragement of teaching and non-teaching personnel. This has provided conducive environment to deliver the utmost in evaluation, assessment, accreditation and up-gradation of this Institution. This leads to quality improvement and sustenance, and helps tap the potential with teaching and non-teaching personnel.

The teachers are continuously and constantly engaged in upgrading and acquiring qualities of teaching skill which attract the students from all sphere of region. As a matter of fact, at present this institution has 20 Post-graduate Courses in

different disciplines towards the fulfillment of recommendations in NAAC report. The College has 93 strong faculty with 35 Ph.Ds, 18 M.Phil.s and 39 designated as Associate Professors.

The college has in all 26 departments of which 12 departments are recognized as Research Centres and efforts are on to get rest of the departments recognized as Research Centre which would carry out research activities in their respective fields.

We evaluate the performance of our institution not only on the basis of marks obtained by the students but by the number of pass outs from our UG and PG departments which undertake research activity at various Universities in nuke and corner of India and abroad. It is matter of pride that many students from this College have been selected for doctoral and post-doctoral research at various foreign Universities.

As a Principal of this college, I earnestly feel that the on going academic activities will create and strengthen the quality of education and environment in this region. The institution has prepared a road map to achieve excellence in every discipline run by the college and NAAC has come as true felicitating instrument in the achieving excellence, aims and objectives of this institution.

The UGC has given extension to this College as "College with Potential for Excellence" (CPE) Phase-II BSR Phase-I with financial assistance of Rs. 60.00 lakhs for 12 Science Departemnts (5.00 lakhs each dept.).
